## World Liver Day

On 19th April 2024, World Liver Day was celebrated with a focus on promoting liver health and raising awareness about liver diseases. To mark the occasion, a medical camp was organized, where free general check-ups were provided to the community. Experienced healthcare professionals conducted liver function tests, offered consultations, and distributed free medicines to those in need. The event aimed to educate individuals about the importance of maintaining a healthy liver and preventing liver-related diseases through healthy lifestyle choices. It was a successful initiative, helping raise awareness and providing valuable healthcare services to many people.

## World Earth Day

On 22nd April 2024, World Earth Day was celebrated with a strong focus on environmental conservation and sustainability. Various activities were organized to raise awareness about the importance of protecting our planet. Students participated in tree plantation drives, clean-up campaigns, and educational sessions about reducing carbon footprints, conserving natural resources, and protecting biodiversity. The event emphasized the role of individuals and communities in preserving the Earth for future generations. Through discussions and hands-on activities, the celebration encouraged everyone to take responsibility for their environment and adopt more eco-friendly practices in daily life.

## Awareness on Pharmaex Software

A session was organized to introduce Pharmaex software for clinical activities to PharmD students. The speaker, Mr. Prasanth, provided an in-depth demonstration of the software's features and its applications in clinical pharmacy practice. Pharmaex is designed to streamline and enhance various clinical tasks, including medication management, patient monitoring, and data analysis. During the session, students learned how to use the software to improve patient care, increase efficiency, and ensure accurate documentation in clinical settings. The introduction of Pharmaex aimed to equip PharmD students with valuable digital tools that will aid them in their professional journey.

## World Malaria Day

On World Malaria Day, an awareness campaign was organized to educate students and the community about the prevention and control of malaria. The focus of the event was on understanding the risks of malaria bites and the importance of taking preventive measures, such as using insect repellent, sleeping under mosquito nets, and eliminating mosquito breeding sites. Experts shared information on the symptoms, transmission, and treatment of malaria, stressing the importance of early diagnosis and proper medical care. The campaign aimed to increase awareness and encourage everyone to take proactive steps in reducing the spread of malaria.

## Training on Vmedulife Software

A training session on VMeduLife Software was conducted, where the speaker provided detailed insights on how the software can be used for academic updates, timetable management, and student curriculum tracking. The session focused on demonstrating the software's features, including how students and faculty can access and update academic schedules, track progress, and manage course-related information effectively. The training aimed to familiarize both students and faculty with the user-friendly interface of V MeduLife, enhancing their experience with academic planning, monitoring, and communication. This initiative is expected to streamline academic processes and improve overall coordination.

## World Environment Day

On 5th June 2024, World Environment Day was celebrated with a series of activities focused on raising awareness about environmental issues and promoting sustainability. The event included tree plantation drives, clean-up campaigns, and educational sessions on topics such as climate change, pollution, and conservation. Students actively participated in discussions on how to reduce waste, conserve water, and adopt eco-friendly practices in daily life. The celebration aimed to inspire everyone to take action in protecting the environment and creating a sustainable future for generations to come. It was a day dedicated to fostering a collective responsibility toward a healthier planet.

## Work shop on Entrepreneurs and Ecosystem

A workshop was conducted, featuring Dr. Karthik Rakam as the speaker. The workshop covered valuable insights on a range of topics, depending on the focus of the session. Dr. Rakam shared his expertise, engaging the participants with practical knowledge and strategies to enhance their skills in the subject at hand. Whether it was career guidance, personal development, or a specific field of study, the session provided students with useful tools and inspiration for their academic and professional journeys.

## Webinar on Overseas Job Opportunities

On 14th June 2024, a workshop on Overseas Education and Job Opportunities was conducted to provide students with valuable insights into pursuing higher education abroad and exploring international career prospects. The session, led by industry experts, covered essential topics such as the application process for foreign universities, scholarship opportunities, visa requirements, and career paths available in various countries. Students were also informed about job opportunities in different sectors globally and the skills required to succeed in international job markets. The workshop served as a comprehensive guide, helping students make informed decisions about their future education and career endeavors.

## World Blood Donor Day

World Blood Donor Day is celebrated annually on 14th June to raise awareness about the importance of blood donation and to thank blood donors for their life-saving contributions. The day focuses on encouraging individuals to donate blood regularly and to highlight the critical need for a steady supply of blood for medical emergencies, surgeries, and patients with chronic conditions. Events such as blood donation drives, educational sessions, and campaigns are organized globally to emphasize the significance of voluntary, unpaid blood donation. The goal is to ensure that every country has access to safe blood and to inspire people to become regular blood donors, saving lives and supporting healthcare systems worldwide.

## International Yoga Day

International Yoga Day was celebrated on 24th June, promoting the benefits of yoga for physical and mental well-being. The event featured various yoga sessions, where participants practiced different asanas, breathing exercises, and mindfulness techniques. The day focused on the holistic health benefits of yoga, emphasizing how it helps in reducing stress, improving flexibility, and enhancing overall fitness. Expert yoga instructors guided the sessions, highlighting the importance of incorporating yoga into daily life for better health and balance. The celebration aimed to inspire people of all ages to embrace yoga as a way to improve both physical and mental health.

## Webinar on career guidance for B.Pharmacy Students

On 21st June 2024, a career guidance session for B Pharmacy students was conducted in collaboration with Skill DuniaAcademia. The session was led by Dr.Atul, who shared valuable insights into various career opportunities available to pharmacy graduates. Dr. Atul discussed potential career paths in the pharmaceutical industry, research, healthcare management, and academia. He also emphasized the importance of acquiring additional skills and certifications to enhance employability in an evolving job market. The session provided students with practical advice on how to navigate their career journey, explore diverse options, and make informed decisions about their future in the pharmaceutical field.

## International Day of Drug Abuse and Illicit Trafficking

On 26th June 2024, an awareness campaign on drug abuse and illicit trafficking was organized in Madhurapudi. The event aimed to educate the local community about the harmful effects of drug abuse and the dangers of illicit drug trafficking. Experts and officials discussed the social, health, and legal implications of drug abuse, while also highlighting the importance of prevention, treatment, and rehabilitation programs. The awareness campaign encouraged individuals to stay informed, avoid substance misuse, and seek help when needed. It was a collective effort to foster a drug-free community and promote healthier, safer lifestyles.

## Pharmacy in Space: Navigating the Intersection of Pharmacy and Innovation:

On 21st September 2024, Vikas Institute of Pharmaceutical Sciences hosted an exciting and highly informative webinar titled “*Pharmacy in Space: Navigating the Intersection of Pharmacy and Innovation*”.

The session was led by Dr. T. Srinivasa Reddy, a renowned scientist from ISRO (Indian Space Research Organisation), who brought a unique perspective on how pharmacy and pharmaceutical sciences intersect with space exploration and innovation. The webinar explored the challenges and innovations associated with ensuring astronaut health, drug stability in space, and the role of pharmaceutical research in supporting long-duration space missions.

## World Pharmacist Day 2024:

World Pharmacist Day 2024 was celebrated with great enthusiasm and success at Vikas Institute of Pharmaceutical Sciences, Rajahmundry. The event was coordinated by K. Ramya, Dr. T. Sai Swapna, and Dr. Madhuri. This year's theme, "Pharmacists' Role in Global Healthcare Needs," was the focal point of the celebrations, emphasizing the vital contributions pharmacists make in healthcare worldwide. The event included multiple activities such as a videomaking competition, a rally in local villages, and an elocution competition, which saw active participation from students.
